

SKF Supplier Excellence Award 2012

QUALITY

MUKAND LIMITED – Wire Division WIRE, INDIA

Motivation

Mukand, Wire Division, is a manufacturer of wires and wire rods, and a partner of SKF, delivering raw materials for tapered roller bearing applications to suppliers of ring and rollers to SKF in India.

Mukand, Wire Division, is awarded for their professional quality management and outstanding quality performances to SKF directly and indirectly. During 2012, Mukand, Wire Division, had a Zero Defect performance with all SKF roller suppliers.

Apart from their quality achievement, Mukand's openness to new ideas, great commitment to continuous improvements, working together for cost level improvements, service attitude towards customers and very efficient operations, have all made favourable impressions.

Thanks to their performance, Mukand, Wire Division, is growing with SKF by widening the scope of their supplies including various export avenues.
